TESTED IN THE OUTBACK

Tested Tough in Australia's Harshest Conditions

In 2025, the Tembo Tusker spent over a year undergoing relentless real-world testing in Western Australia's most extreme outback mines and deserts.

We pushed it through punishing heat, dust and terrain — putting it to genuine hard work.

The result? An electric ute engineered specifically for Australia's demanding conditions — the first truly EV-ready ute built for mines, councils and trades.

TWO TUSKER OPTIONS TO SUIT YOUR WORK

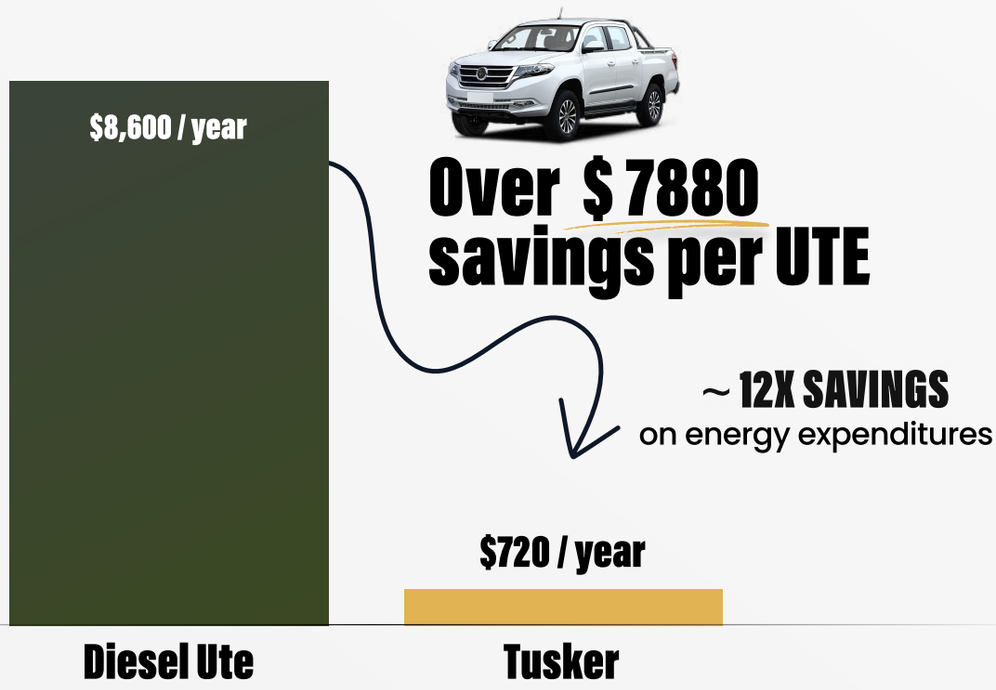

SINGLE CAB

DUAL CAB

SMARTER FLEETS.
MASSIVE FUEL SAVINGS.

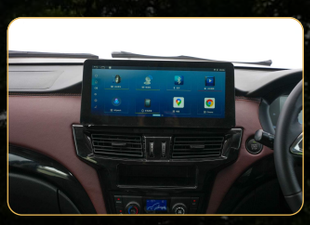

For a fleet of 100 vehicles: over $788,000 saved per year

**Annual distance driven: 150 km/day × 5 days/week × 52 weeks/year*
**Indicative costs based on depot charging at ~8¢/kWh*
**Diesel cost: $1.84 per liter*

OVER-THE-AIR UPDATES - BUILT FOR AUSTRALIA

The Tembo Tusker receives seamless over-the-air (OTA) software updates, all developed and deployed by our dedicated Australian team right here in Australia.

This local approach means UI enhancements, new features, and functionality improvements are pushed directly to your vehicle at incredible speed — no dealership visits required, and always tailored to Australian conditions and customer needs.
